The clever concept: Air-supported spraying with «Accu-Power»

A new dimension to plant protection: Spraying with pressure-controlled liquid supply into the air stream. A large spraying range can be achieved with pre-spraying and a variable air stream. A minimum loss of spray solution and a long reach is the result. The air stream also causes the targeted leaves to move, providing optimum wetting and penetration of foliage and shrubbery. The AS 1200, powered by an additional battery, is combined with a sprayer from the «Accu-Power» line. The spray blower is extremely powerful, easy to operate and impressively quiet.

Makes work easier

With pressure-controlled pre-spraying and an adjustable air stream, the AS 1200 achieves a maximum liquid transportation over the required distance.

- Adjustable air stream
- Defined pre-spraying
- Configurable flow rate
- Evenly distributed droplet spectrum
- Optimum target penetration
- High level of target area efficiency
- Improved use of active ingredients

Added value by combining with the «Accu-Power» line

Powerful and quiet performance

- Up to 6 hours of rechargeable battery power
- Adjustable air speeds up to 65 m/s
- Additional power level
- Spray distance up to 13 meters
- Low noise emission
- High energy efficiency

Unlimited uses

- Viticulture
- Fruit growing
- Gardening and landscaping
- Ornamental plant cultivation
- Nurseries
- Vegetable growing and much more...
