

AS 1200 with REC 15

AS 1200 Testimonial – Box trees

User:

Lampart-Gardening, Zofingen

Lampart-Gardening

The airstream is perfect for an optimal penetration into the box trees. Besides that, the spray liquid consumption reduces about 30 %. The AS 1200 is a class of its own.

Application details	
Device:	AS 1200 with REC 15
Nozzle:	AITXA 8002 VK (yellow)
Airspeed level:	4 (box trees)
Pressure REC 15:	6 bar (optimal penetration)
Spray liquid:	Spray liquid against box tree moth, insecticide against mites and fungicide (when treating roses)
Area:	Individually
Spray liquid consumption:	Reduction of 30 % during one year

Result / conclusion of Lampart-Gardening:

- The AS 1200 is used for box trees and roses.
- The biggest advantage of the AS 1200 is the minimal drifting and the very low noise (zero emission, no vibrations).
- The airstream is perfect for an optimal penetration into the box trees. The very good and evenly distribution of the droplets is an other benefit.
